# Your complete content partners.

Welcome to the 2024/25 standing orders from Bolinda.

What you can expect from Bolinda standing orders this year is a highly curated list of large print and audiobook titles that will suit your every need, ensuring that we fulfil our promise to you of being your complete content partner.

The last year we have been wildly focused on ensuring that we get books and audiobooks onto your shelves when they are most in demand. We have also been simplifying the solutions we offer you – working faster and better with your budgets and customers always at the forefront of our minds.

The innovation and quality of our services is top priority – including our content offering, processing, cataloguing and timely delivery of books and audiobooks for your shelves.

In the past year BorrowBox – your library in one app, has become the world's first fully native app, offering three formats – making it simpler than ever for your customers to use the BorrowBox app to read and listen to eBooks, eAudiobooks, eMagazines, eNewspapers.

Morris Gleitzman, former Australian Children's Laureate and one of Australia's most favourite and beloved authors, called me the other day to tell me that BorrowBox has truly become a part of the 'cultural fabric of our nation.' We never thought that when we started with a simple idea to help our customers navigate the digital shift with an innovative audiobook download solution, that it would become what it has today.

That has all been possible through the successful partnership we have with your library and most of all, your commitment to offering the best tech, content and service to the members of your community.

Our team, as always, is here to be of service, so please enjoy what we have put together as a taste of what's to come this year from Bolinda.
