

Your Complete Content Partner

2026-2027

Your community.

Welcome to **Bolinda Standing Orders 2026/27**.
Built around your library. Curated to loan.

At Bolinda, our focus is simple supplying your library shelves with content that loans.

Our Standing Orders are built to help libraries deliver high-performing Large Print and Audiobook collections with confidence — carefully curated, reliably supplied, and backed by the experience and judgement libraries have trusted for decades.

In a changing library landscape, physical formats continue to play an important role. Large Print remains essential for accessibility, comfort and reader choice. CDs continue to serve loyal audiobook borrowers who value a familiar, dependable format. And for library teams, both formats need to work hard: strong titles, consistent supply and minimal administration.

That is where Bolinda stands apart — with the local service, scale and category expertise to keep your collections performing.

Every standing order is shaped by deep publishing knowledge, proven borrower demand and a practical understanding of what libraries need. Our CD service is supported by local manufacturing, premium packaging and quick turnaround times, while our Large Print range is curated to keep collections fresh, relevant and ready to loan.

Across the broader Bolinda business, we continue to invest in the future of library content through BorrowBox — strengthening our commitment to premium digital collections with the addition of trusted, high-value content such as the Australian Financial Review.

Inside, you'll find a preview of the year ahead: carefully selected titles, proven formats, dependable service and a team genuinely committed to helping your collection perform.

Thank you for choosing Bolinda. We're proud to support your library with content, service and expertise designed around the way your members read and listen.

Anywhere. Everywhere.

Warm regards,
Rebecca & Jan
