Things No One Taught Us About Love

How to Build Healthy Relationships with Yourself and Others
Vex King

Many of us expect romantic love to solve our problems and validate our worth. This burden strains modern relationships. Partners become frustrated when unable to meet each other's idealised and impossible demands. Broken dreams of a life-long romance can leave people feeling incomplete and hopping from one partner to another.

It's no wonder we struggle, given that society fails to teach us about the true nature of love. We've been misled into thinking love is external – somewhere out there – rather than a force within us.

Vex King dismantles the myths and misconceptions surrounding love and relationships. Packed with personal stories, expert advice and inspirational messages, *Things No-one Taught Us About Love* will help you understand how you love, create healthy habits, set boundaries that work for you and heal unprocessed emotion and trauma.
