

We keep great company.

Anywhere. Everywhere.

Did you know that Bolinda offers a range of content that no one else can?

Whilst most of you may say yes, others may not be aware of the full scope of our range.

This PDF showcases our publishing partners whose content is made available **EXCLUSIVELY** to Libraries in Australia and New Zealand by Bolinda. The breadth of content from these world-class publishers is not available from anyone else.

This means that the range of content we offer is expertly curated and made exclusively available through us, including the world's best content from our publishing company Bolinda, ABC audiobooks and our partners too.

These exclusive partnerships provide your library with the biggest local stories (which we and our libraries are super passionate about!) as well as access to bestselling, blockbuster international titles. Our expert team, headed by myself, sources content from our world-class publishing partners, who trust us to represent their product with our unique library market knowledge.

All audio titles are manufactured locally and come backed with a complete guarantee, along with our Large Print titles which are handpicked and curated to offer a unique range of plans.

Our exclusive audio content is also available digitally and exclusively through our award-winning BorrowBox app.

These partnerships allow us to deliver the world's best content in a range of formats that no one else can, driving unrivalled usage and loans amongst our libraries. Our exclusive range of products is backed by our exemplary service.

If you have any questions please do not hesitate to contact myself or our team. By working with us we guarantee you will have the best content from a breadth of publishers that is so good there is simply no need to go anywhere else.
